VOLUME CVII.--NO. 112. ALEXANDRIA, VA., WEDNESDAY EVENING, MAY 9, 1906. PRICE 2 CENTS.

Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine OF KNOWN COMPOSITION, a full list of all its ingredients being printed, *in plain English*, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol *and that too in large quantities*. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely *free* if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed *in plain English* on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are *free* for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Murder and Suicide.

Mrs. Edward P. Massa, wife of a foreman in the Ohio Brass Works, and Lorenzo D. Frasher, a prominent building contractor, were shot to death in the kitchen of the woman's home, in Mansfield, Ohio, early yesterday evening. Everything indicates that it is a case of murder and suicide; that Frasher first killed the woman and then turned the weapon upon himself.

Mrs. Massa had been at work preparing supper, as it was nearly time for her husband to get home from his work. The table was spread, the dishes in their places, the bread cut, and the milk poured out.

The Massas and Frashers were neighbors, and always seemed to be the best of friends. Coroner Goodman said last night that Frasher was much enamored of the woman, and probably killed her because she repulsed him.

Edward Massa, the husband of the murdered woman, was on his way home from work, and was nearing the house when he saw the crowd. When he had ascertained the cause, with an exclamation of horror, he started on a run for the house. As he looked in at the kitchen door and saw the bodies lying there he fainted.

Frasher was about forty-six years old, and leaves a wife and one son, aged nine.

The affair created a profound sensation in Mansfield, coming as it does only a few weeks after the murder of Grace Zeliner by her lover, Roy Shands, who immediately thereafter killed himself.

Methodist Doctrines.

At Monday's session of the general conference of the Methodist Episcopal Church South in Birmingham, Ala., a resolution concerning the preparation of a new statement of the doctrinal faith of Methodists was introduced by W. F. Tillett and W. R. Lambuth, of the Tennessee conference. It says:

"While reaffirming our absolute faith in our articles of religion, we do not believe that in their present form they meet the existing needs of our church as a statement of the doctrinal system of evangelical methodist Arminiarism. Believing that the different branches of world-wide Methodism that are presented in an ecumenical Methodist conference can and should unite in the preparation of such a statement of our common faith as is needed, and believing that this general conference should take such steps as may be necessary to secure in the early future the co-operation of other representative Methodist churches, we therefore request the college of bishops to appoint a committee of five members, which shall invite other branches of Methodism to unite with us in the preparation of such a statement of our faith."

A special committee was created to consider the matter.

Derrick Wrecked.

As a result of strike troubles among the structural iron workers, a derrick at the Cambria Steel Works was wrecked at Johnstown, Pa., Monday and, besides destroying about $2,000 worth of property, the lives of a number of workmen were endangered. F. J. McElhatton, an employe of a Pittsburg contracting firm, is under arrest, charged with malicious mischief in causing the wreck. The iron workers employed in erecting a building for the steel company at Johnstown have been on strike since May 1. Yesterday morning, however, the men returned to work on the open-shop basis, all other demands having been met. McElhatton was the only one that held out, and, it is alleged, that, in the absence of the superintendent, he entered the engine room and released a drum that contained the cable controlling a boom eighty feet long. The boom fell with a crash upon the framework of the building, carrying much of it to the ground, and breaking the boom in three places.

Killed in an Elevator.

Charles N. Grover, an insurance agent from Philadelphia, was killed in a passenger elevator of the Victoria Hotel, New York, early last night. Mr. Grover and Frederick D. Savage, a business associate, stepped into the elevator together about 6:30 o'clock to go to Grover's room on the third floor. Just as the elevator passed the second floor Mr. Grover was heard to groan and to toppel over as if in a faint. He fell forward, and before the startled elevator boy could stop the car the insurance man's head had been crushed between the third floor and the bottom of the elevator. Thomas Fitzgibbons, the attendant, finally managed to reverse the elevator, and it shot downward with great speed, and the boy fainted as he reversed it. Fitzgibbons became temporarily insane from the shock. The body of Grover was hurled back into the car, which stopped when it reached the basement floor.

Unordained Preachers.

The General Conference of the Methodist Episcopal Church South in Birmingham, Ala., passed its first law yesterday when it conferred in the main report of the revisals committee as amended powers on unordained preachers. Under the new law preachers who have not been ordained may preach the gospel, celebrate the rite of matrimony and, in the absence of an elder or bishop, administer baptism, control the appointment of all services to be held in the church in his charge, with the understanding that no permanent powers of ordination are conferred until the same shall be granted by the laying on of hands after he shall have met the disciplinary requirements.

The committee on itinerancy reported non-concurrence in a series of resolutions enlarging the functions of the Annual Conference and regulating the exercise of transfers by the bishop. The committee also nonconcurred in memorials suggesting that authority be restored to the Quarterly Conference to license local preachers.

The Epworth League committee reported concurrence in certain changes suggested for the discipline.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, MAY 9, 1906.

THE statement of the condition of national banks on April 6, which was published by the Comptroller of the Currency a few days ago, affords a number of interesting comparisons. The most striking fact is that, as compared with the figures on January 29, when the last previous report was made, the national banks, holding $620,000,000 cash, have $48,000,000 of money less on hand than three months ago, while going back to March 14, 1905, their cash reserves were $21,000,000 more. On the other hand, loans have expanded $70,000,000 during the first quarter of the present year, and their amount is $290,000,000 greater than they were in March of last year. During the first three months of 1906 deposits by individuals decreased $110,000,000, but are, nevertheless, $100,000,000 greater than they were last year. The United States government deposits show since January an increase of $11,926,000, but were $20,000,000 smaller on April 6 than they were a little more than a year before, this change pointing to the effects of Secretary Shaw's reduction of the government funds in the banks prior to the inception of his new policy of facilitating gold imports by special deposits in the banking institutions. The showing as a whole, says Bradstreets, points to a very heavy extension of credits throughout the country, consonant with the expansion of business and the magnitude of the speculation which has grown up in so many directions.

REV. DR. CHARLES H. PARKHURST, of New York, in a public address, has announced himself as a socialist in believing it to be a crime "for an individual to hoard the proceeds derived from his or her paramount ability or talent." He believes that the salvation of this country depends "upon our early acceptance and practice of Christian socialism as a political creed." In the existing movement for government ownership of public utilities he sees that we are swiftly drifting toward a larger form of socialism. He understands that the socialism currently advocated by the socialist party is a branch of the larger doctrine. He does not, however, believe in communism. During the centuries that have elapsed since the dawn of the present era it has been proven beyond all shadow of controversy that politics and religion were never intended to mingle, and the adoption of "Christian socialism as a political creed" is the wildest and most impractical of all Dr. Parkhurst's dreams.

THE FULL extent to which President Roosevelt was whipsawed in the railroad rate bill compromise became strikingly obvious yesterday, when Senator Cullom, on behalf of Senator Allison, presented in the Senate the series of amendments finally agreed on at Monday night's conference of the leaders of the two republican factions of that body. It became apparent that, unaided by the President and dispite his premature acceptance of the original so-called Allison amendment, the republican "radicals" had wrung very important concessions from the conservatives. The latter had been forced not merely to concede that preliminary injunctions should not issue without at least five days' notice to the commerce commission, and that appeals against injunctions should be directly from the Circuit Court to Supreme Court, but that, in addition, the words, "fairly remunerative," should be stricken from the rate defining clause.

FEARS concerning the safety of the Lick Observatory, its corps of observers and its splendid equipment of instruments, were felt in the East when the first news of the California earthquake was received. Mount Hamilton, on which that important institution is situated, is not more than fifteen or twenty miles from San Jose, which suffered terribly. The world of science will rejoice, therefore, over the positive assurance of Mr. Campbell, the director, that neither buildings nor apparatus sustained injury.

THE word obey is omitted from the form of marriage service in the new Presbyterian Book of Worship. The compilers, suggests the New York Tribune, evidently sought to bring the service into closer conformity with the actual conditions of married life.

GENERAL GREELY has issued an order that all ablebodied men in San Francisco must work for their bread. And why not?

A generally incorrect impression prevails that serious damage was done in Sacramento city by the recent earthquake, which was the indirect cause of the great San Francisco fire on April 18th. As a matter of fact not a single pane of glass was broken, not a brick displaced, not a machine thrown out of adjustment and not a person injured, however slightly, in Sacramento city. The same is true of all the smaller cities and towns throughout the Sacramento valley.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, May 9.

Rumors to the effect that Senator Arthur P. Gorman, of Maryland, is in a critical condition were denied by a member of his own family this morning. It is stated that the Senator had a slight relapse a few days ago but that he has steadily improved since and that today he is feeling much better and stronger. From other sources it is learned that while there is no immediate cause for alarm in the Senator's condition it is extremely doubtful if he will be able to resume his senatorial duties for a long time. Beginning with an attack of grippe early in the winter a malady seized upon Senator Gorman which has made his heart weak and has seriously affected other organs. His physician has forbidden him to receive callers or do anything that might produce excitement, and only one or two of his most intimate friends have seen him during the last two months. It is quite certain that he will not take part in any of the further proceedings of the Senate this session although he is of course paired on all important questions in favor of his party's principles. His secretary visits Mr. Gorman nearly every day to look after the Senator's correspondence. His family is quite hopeful that with the return of warm weather the Senator will improve sufficiently to enable him to take some outdoor exercise.

Senator Dolliver, who had a talk with the President this morning over railroad rates, left the executive offices declaring that all is harmony in the Senate. "I believe that we will get a vote before the end of the week," said Senator Dolliver. "All the differences between the republicans have been adjusted by the Allison amendment, and I look for a very early agreement." Senator Dolliver added that the subject of coal carrying by the railroads would not be taken up by the Senete until after the Interstate Commerce Commission had completed its investigation into the subject.

The federal government today filed suit against the drug trust of the United States. In an official statement on the matter issued this afternoon Attorney General Moody says: "The government has today filed in the Circuit Court of the United States, for the District of Indiana a petition for an injunction against certain associations, corporations and individuals comprising what is commonly known as the 'drug trust' of the United States. The parties defendant specifically named in the bill have apparently combined together to control the prices at which proprietary medicines and drugs shall be sold to the consumer through the retail druggists, in violation of the Sherman anti-trust law. The parties to the combination include, the Proprietary Association of America, the National Wholesale Druggists' Association and the National Association of retail druggists. An injunction is prayed for prohibiting these associations from acting in consort for the purpose of maintaining prices and the individual firms and corporations who are members of the respective associations from acting together for the purpose of maintaining uniform prices to the consumers throughout the United States."

In order to render assistance to stricken California, the House committee on public lands today authorized a favorable report on the bill to pay to California, as has been paid to most of the western States, five per cent. on the cash sales of public lands. In the case of California this would amount to about $900,000. In the case of the western States, which have already been paid this five per cent., provision for same was made in the enabling acts. California came into the union without an enabling act.

The Senate yesterday evening adjourned in a state of great confusion as to the exact subject before it. Russian Affairs.

The first National Russian Assembly may result in a revolution.

German Naval Secrets.

Witnesses testified that Zentfleben sold information in regard to secret construction of a special submarine mine to the American Minister at Brussels. Further evidence was offered showing that Zentfleben and Lucke sold other naval secrets to other agents of the American goverment. The revelations made at the trial have produced a great sensation.

Today's Telegraphic News

England and Turkey.

Malta, May 9.—The second British cruiser squadron, under the command of Prince Louis of Battenberg, is expected to reach Piraes today, to join the fleet of Admiral Lord Charles Beresford, which is being assembled close to Turkish waters to make a naval demonstration in case it is necessary for Great Britain to take such action to enforce her ultimatum to Turkey, requiring the withdrawal of Turkish troops from Tabas.

Constantinople, May 9.—The Sultan has not yet shown any signs of backing down in the face of the British ultimatum demanding the withdrawal of Turkish troops from Tabas. The Turkish ruler is becoming sullen, owing to two surprises he has encountered during the present crisis, namely, the aloofness manifested by Germany in the crisis and the firmness shown by Great Britain. The Sultan has relied upon the moral support of Germany during the critical phases of disputes in movements relating to the situation east of the Suez canal, owing to the German desire for commercial advantages. In the present case Germany has not only abstained from giving encouragement, but on Sunday the Kaiser sent an autograph letter to Abdul Hamid, counselling him to yield.

This letter irritated the Sultan greatly, and this is responsible for the detention of the German sailing vessel Odyssens in the Bosphorus. Two forthcoming German expeditions to Syria for scientific and commercial purposes are likely to meet the backwash of this antagonism for Germany.

The British preparations for naval operations against Turkey are much more complete than the Sultan expected after the recent dilatoriness displayed by England following the elections in that country, but Abdul Hamid does not fear a blockade of the Bosphorus, but believing that if Great Britain tried to take such actions, she would soon clash with Russia. Nevertheless, it is understood that the Sultan is seeking the right moment in which to back down after he has made every possible effort to extract concessions from England.

Safe-guarding the Czar.

St. Petersburg, May 9.—The final arrangements have all been completed for the formal opening of the National Douma, which takes places tomorrow. The most noticeable features of the preparations are the safeguards which have been arranged to secure the safety of Czar Nicholas during his visit to the winter palace to open the Douma in person. In order to prevent disorders and protect the Czar, the police have made arrangements not to permit even small crowds to assemble. Every person on the streets will be closely watched and if the suspicions of officers are aroused no time will be lost in putting the suspicious individuals under arrest.

St. Petersburg, May 9.—The Czar arrived at Peterhof today in readiness for his visit to the city tomorrow to take part in the ceremony of opening the Douma. The monarch has slightly changed his plans, and, instead of going direct to the Winter Palace, from Peterhof, he will board the royal yacht early in the morning and proceed to the Cathedral of Saints Peter and Paul, which is across the river from the Winter Palace. He will visit the tomb of his father to pray and will then proceed to the Winter Palace for the douma ceremonies. All traffic on the Neva will be suspended during the time the Emperor is in the city or on the royal yacht.

Anarchist Conspiracy Discovered.

Berlin, May 9.—A dangerous anarchist conspiracy to murder the German Emperor has been discovered and frustrated at Urville, near Metz, where the Emperor has a castle Kaiser William is scheduled to arrive at his Urville castle on Friday next for a visit lasting several days, and preparations for his reception have been proceeding for some time past. This morning the police discovered a large quantity of dynamite on the premises sufficient to demolish the whole palace at one stroke. Investigations were immediately begun, and as a result five foreigners were placed under arrest. They have been identified as notorious anarchists. Documents found in their possession prove that they had a most elaborate plan for the murder of the Kaiser and every detail had been worked out. The men had been operating for a fortnight undetected by those in charge of the palace and grounds. The police admit that the Emperor had a narrow escape from being blown to pieces, together with all others who happened to be in the palace.

Seizure of German Ship.

London, May 9.—A news agency report states that the German sailing vessel Odysseus, from Roumania, while discharging a cargo of benzine in the Bosphorus, was detained by Turks and taken to Kavak, where the boat was anchored under the guns of the forts. The reason for the seizure, it is stated, is that the Turks suspected there were explosives aboard the vessel. The German ambassador was unable to secure any satisfaction for the seizure of the vessel. He finally went aboard the Odyssens taking his flag with him, and had her towed out under the protection of the German flag. The vessel will now be allowed to proceed on her voyage.

Arrest of Anarchist.

Zurich, Switzerland, May 9.—Senna Hoy, one of the best-known as well as most dangerous anarchists in the world, has been arrested here. Hoy was at the head of the German anarchists and was compelled to leave Germany a year ago, to escape arrest. He went to Russia, where he joined the inner circle of anarchists. The Russian police offered a reward of $2,500 for his capture, but, after numerous hair breadth escapes, Hoy made his way to Switzerland, where he has just been apprehended. Both Germany and Russia have asked for his extradition.

Lake Disaster.

Cleveland, O., May 9.—The schooner Algeria, tied up off this harbor as a result of the lake strike, sank in a terrific gale prevailing off Lake Erie and the barge Iron Queen is in distress a mile off the harbor. It is believed the captain, steward and one sailor went down with the Algeria. Lifesavers took off the crew of eight men of the Iron Queen.

City Council.

The City Council was in session nearly two hours last night.

BOARD OF ALDERMEN.

The report of the committees on streets and finance recommending an appropriation of $1,900 for the purchase of a steam roller, received from Common Council and laid over at the last meeting, was read.

Mr. Ballenger said he supposed that when he recently voted for an appropriation for the purchase of a stonecrusher he was also voting for a steam roller.

Mr. Burke described the utility of a steam roller, and said it would require the service of eight horses to a contrivance of sufficient weight for certain city work. Besides the city contemplated work which would require a heavy roller, and the committee had deemed it proper to buy a suitable one, with the proper appliances, for future use. The city had recently been borrowing a roller from the county, but of late it could not be obtained when a request was made for it.

Mr. Ballenger said he favored street improvements, but he could not understand why the city was always in a condition to spend a few thousand dollars here and there for this and that purpose, but when certain other things were proposed it was alleged that the city had no money. He cited as an instance the proposition that the city install an electric light plant. Every one realized that the city should be equipped with electric light, but the depletion of the city treasury was always urged when this subject was brought up. Appropriations seemed to be in one direction, only.

Mr. Marbury said it was impossible to execute city work without proper appliances.

President Sweeney asked Mr. Marbury the nature of the work now being done.

Mr. Marbury replied that gravel roads were being constructed and certain improvements were being contemplated at the head of King street.

President Sweeney said he would like to hear from City Engineer Dunn before the Aldermen concurred in the action of the lower board. If there was no immediate use for a steam roller, it would have to be stored away.

Mr. Marbury showed the necessity of a stonecrusher as well as the need of a steam roller.

Mr. Burke referred to several recent appropriations made at the request of the finance and other committees, and referred to the fact that the license tax had been increased on insurance companies with the understanding that the city would maintain in good condition three steam fire engines. The old Hydraulion apparatus had been pronounced unserviceable and the committees had deemed it advisable to purchase an apparatus to take its place. While the city could purchase an engine for $3,500 it was not in a position to construct an electric plant which would cost at least $50,000. It was also a well-known fact that the present plant could not be made to furnish light for public and private purposes as well as power, all of which were urgently needed in Alexandria. The speaker believed the commercial interests of the city were retarded by the want of this modern commodity. Mr. Burke also referred to certain facts in connection with the city's financial affairs, its present debt, &c.

Mr. Ballenger said he acknowledged the correctness of what Mr. Burke had said, but he had his doubts concerning the cost of an electric plant. He said the town of Manassas had recently voted to install an electric plant to cost $50,000.

Mr. Burke said the town of Manassas had no debt hanging over it.

Mr. Ballenger said the electric plant at the Portner Brewery did not cost $50,000, yet it could furnish electricity for the city of Alexandria.

Mr. Marbury said all the electric wires in the city would have to be renewed when another plant shall have been constructed.

The debate continued for some time, and it was finally determined to lay the report over.

Mr. Curtin moved that the board reconsider its action of the last meeting in reference to the ordinance providing for advertising for bids for electric light and power and that the ordinance be recommitted to the committee on light and finance and with the understanding that the Corporation Attorney be requested to be present at the meetings of the joint committees.

Mr. Simpson introduced a resolution looking to the utilizing of the Hydraulion engine house on north Royal street for storing tools used by street workmen, together with certain supplies, &c., belonging to the city. The resolution was referred to the committees on public property, streets and light.

A report of the finance committee recommending an appropriation of $200 for the use of the Alexandria Kindergarten Association was received from the lower board.

Mr. Simpson said he was by no means convinced that Council was proceeding legally in appropriating yearly money for this institution, although he appreciated the motives and labors of those composing the association as much as any one. When he was Mayor of the city Council had voted $200 to the association. He did not sign the paper and the appropriation was made without his approval. He was then convinced that the donation was illegal and he would have vetoed the measure but from the fact that at that time there were divergences of opinion between himself and Council regarding other matters. At present, the speaker said, he did not see his way clear to vote for the appropriation, acting, as he is, as a representative of the people.

Mr. Burke asked if the kindergarten could not be considered a part of the free school system.

Mr. Simpson said he failed to see it in that light. The State constitution forbade appropriations of public funds for such associations. If it could be shown, however, that the kindergarten was a part of our educational system, he would vote to adopt the report of the committee.

Mr. Ballenger said he agreed, in a measure, with both Mr. Burke and Mr Simpson. He favored making this appropriation with the understanding that it was to be the last.

President Sweeney was not inclined to shut down unceremoniously on the appropriations, as Council had been voting the association money for several years.

Mr. Burke said that, as a member of the finance committee, he voted for the appropriation, not knowing that the procedure was illegal. He asked if appropriations for 22d of February parades were also out of order.

Mr. Simpson—"Yes."

The report was laid over.

After this matter had been disposed of a communication was received from the lower board asking an appropriation of $100 for the purpose of defraying the expenses of the Columbia fire company's proposed visit to Richmond next August. The paper had been referred to the finance committee by the Common Council and their action was concurred in. It was generally agreed that Council had no more authority to make this appropriation than that solicited by the Kindergarten Association.

The license law was received from the Common Council and laid over, and a number of other papers was received from the lower board and the action of the lower board concurred in.

COMMON COUNCIL.

The board met soon after 8 o'clock and the reading of the minutes of the last meeting was dispensed with.

The finance committee reported the annual license bill in which the tax on liquor licenses was increased from $70 to $95 and on barrooms from $75 to $100 with similar $25 increase—beer agent from $25 to $50 and rectifiers from $60 to $85.

Mr. Leadbeater asked if the chairman of the finance committee could inform the board what was the cost of license in other cities of the State.

Mr. Bryan said he could not do so, but knew it was much greater than in Alexandria.

Mr. Leadbeater said that in Culpeper $1000 was charged and a dealer who had an establishment in Alexandria and also in Culpeper paid $70 here and $1,000 in Culpeper.

Mr. Spinks urged that it would be injustice to raise the tax. The financial system of this city was excellent now and there was no need of the additional tax. Some alcohol was sold without license but he did not desire to raise this question.

Mr. Leadbeater moved to make the tax $350 which was not agreed to.

An increase was made on bankers from $150 to $250.

Mr. Snowden moved that a tax of ten dollars be imposed on all owners of automobiles, but, at the request of the chairman of the finance committee, the motion went over till the next meeting.

The ordinance was then adopted, yeas 13, nays 0.

The finance committee reported an appropriation of $200 in favor of the Alexandria Kindergarten which was agreed to.

The committees on light and finance reported an appropriation of $1,500 to buy land adjacent to the gas works, which was agreed to.

The street committee reported an appropriation of $8,800 to grade, gutter and macadamize Washington street from Queen to Wythe street.

Mr. Leadbeater explained that the property holders had agreed to give $2,825 or $1 per be front-foot, which he said was an equal proportion to the amount paid by property owners on vitrified brick streets.

The Chair, at the suggestion of the chairman of the finance committee, said the matter would go to the joint committees of finance and streets.

Mr. Leadbeater objected to this, saying it made the committee too large and hindered business. He thought that after the finance committee had determined the amount to be appropriated for streets, &c., its function ended. It was the work of the street committee to apportion that sum among the various street improvements.

The Chair said the custom for sometime had been to refer such matters to the united committees.

The subject was referred to the committees on streets and finance.

Mr. T. C. Perry was authorized to make a frame improvement at his house on south Washington street provided the adjoining owners consent.

The application of the Columbia Fire Company for assistance in making a trip to Richmond was referred.

An appropriation of $8,750 to extend Peyton street sewer to West street and $1,000 for a sewer on Royal street from Queen to Princess street, were referred.

The State laws in relation to automobiles, &c., was referred to the committees on general law and streets. This law requires the concurrence of City Councils.

The ordinance granting the exclusive right to furnish electric power, &c. in the city of Alexandria came back from the Aldermen, recommitting the matter to the light and finance committees and to the City Attorney, and Council concurred in the action of the Aldermen.

Mr. Bryan objected, but yielded to the suggestion of the Chair that this course would help final action on the measure.

Council concurred with the Aldermen in relation to a sewer for the M. E. Church South, for repairing the old Hydraulion engine house, and in the case of Mr. Chas. King's application for permission to erect a warehouse.

The application of Messrs. Harlow Bros., for leave to place a feed trough on the sidewalk of their store on Cameron street, was referred.

And the board adjourned.

The Railroad Rate Bill.

Conferences in the Senate Monday which resulted in positive agreements on six propositions to be incorporated in the Allison amendment to the railroad bill were ratified yesterday by additional conferences of Senate leaders representing all republican factions. That there could be no further misunderstanding this data for the basis of the agreement was prepared and exchanged:

"The Allison amendment is to comprise six propositions:

"1. The words 'fairly remunerative' in section 4 of the bill are to be stricken out.

"2. The words 'in its judgment' in the same section are to be retained.

"3 Jurisdiction is vested in the United States Circuit Courts to hear and determine suits against the commission.

"4. No preliminary injunction or interlocutory order is to be granted without a hearing and notice.

"5. The application for preliminary injunction or interlocutory decree is to be heard by three judges.

"6. A direct appeal from the interlocutory order or decree to lie only to the Supreme Court of the United States."

Under the first and second clauses of the agreement the rate-making section of the bill will authorize the Interstate Commerce Commission when, after full hearing, it shall be of the opinion that rates are unjust or unreasonable, or unjust, discriminatory or unduly preferential or prejudicial "to determine and prescribe what will, in its judgment, be the just and reasonable rate or rates, charge or charges to be thereafter observed in such case as the maximum to be charged."

The third clause is the original Allison compromise amendment, and simply confers jurisdiction on the Circuit Courts to hear and determine suits against the commission. The fourth, fifth and sixth clauses place certain restrictions upon the granting of injunctions and provide for the appeal from such orders direct to the Supreme Court.

SENATE.

Mr. Platt introduced a proposed amendment to the constitution, prohibiting polygamy and polygamous cohabitation and making the practice a crime against the United States. It went to the table.

The Elkins amendment to the rate bill, providing for the divorcement of coal and oil and other business from that of transportation by interstate carriers, again became a storm centre, when the Senate met today.

The question was upon an amendment offered by Mr. Dryden, fixing July 1, 1908, as the time when the provision should take effect. This was agreed to by a vote of 44 to 29. Those republicans voting in the negative were Burkett, Dolliver, Gamble, LaFollette and Lodge.

Mr. Clark was the only democrat who voted in the affirmative.

Mr. Hopkins moved that the amendment and all others relative to the subject be referred to the committee on interstate commerce, declaring that the subject should have separate consideration and action.

This was in accordance with an agreement reached last night, by several republican leaders. Mr. Bailey objected, raising the point of order that the reference of a bill could be made but not of an amendment, when the committee in question had no bill under consideration embodying the subject matter.

This sent almost every Senator into the book of rules, while a spirited and long debate proceeded.

Senator Flint today introduced a joint resolution appropriating $500,000 additional for the relief of the San Francisco earthquake sufferers, the money to be expended in the purchase and distribution of the quartermaster and commissary stores. If adopted, this will make the total appropriation by Congress for this purpose $3,000,000.

Senators Lodge and Gallinger upheld the Bailey contention.

After a debate for an hour and a half, on the point of order the Vice President submitted to the Senate whether the motion of Mr. Hopkins was in order. It held to be out of order by a vote of 48 to 25.

HOUSE.

The House adopted a resolution empowering the committee on expenditures in the Agriculture Department to summon witnesses and compel them to testify as to expenditures in the Agriculture Department.

Mr. Williams, in order to establish a quorum, secured a roll-call on the motion of Mr. Foss, to consider the naval appropriation bill in committee of the whole.

TELEGRAPHIC BREVITIES.

Snow fell at Franklin, Pa., for several hours this morning which breaks all local records during recent years.

A dispatch from The Hague says that Queen Wilhelmina is expecting a visit from the stork. Confirmation of a report to this effect was secured in court circles today.

In a trolley crash at Clinton avenue and Thomas street, Newark, N. J., at 12:45 o'clock this morning, many persons, some of them members of James T. Boyd council of the Junior Order of United American Mechanics, of Bloomfield, were hurt, and about two score others, passengers on both cars were given a good shaken up.

Charles Moran and Thomas Weir, members of the housesmiths and bridgemen's union, who pleaded guilty some days ago, to having attempted on February 24 last to dynamite derricks on a Post & McCord contract were sentenced to imprisonment this morning by Justice Foster, in New York.

Questions to the propriety and ability of a decision as to the moral standing of members of the Episcopal Church who wish to vote at parish meetings, divided the State convention of the New Jersey diocese at Atlantic City this morning, and caused the carrying over of the meeting for the settlement of the questions of change in the canons of the church.

Fresh bombs were found this morning in the Rue Overst Plaisance district in Paris in front of a former Marist convent, on which the carpenters and masons who were engaged in making alterations, at the time the strike was declared, have stopped work.

New York Stock Market.

New York, May 9.—After an irregular opening, the stock market yielded under pressure of what was considered long stock, prices falling from 1 to 2 points in nearly all the active issues and the volume of business at the same time fell off materially. The reaction was called by many brokers a set back to the market. Conservative interests though said that the market needed a reaction and that the recession in prices left the speculative situation in much stronger shape than it was before.

To serve well today and better tomorrow.

To make shopping not only profitable but agreeable.

To sell reliable goods and nothing else, at prices as low as possible.

From the beginning of this business 3 years ago the eminently fair principle of one price has been maintained here. In every other store the practice of bargaining prevailed after we had demonstrated not only the equity but the business advantage of adhering to the policy of

One Price To All.

JEWELRY.

YES,

We Probably Have It.

A good many people make the mistake of going to Washington to get something they could buy at home, do not look for it here, just jump to the conclusion that such things are not to be had in Alexandria.

We would like to state to those contemplating purchasing a fine watch, or diamond, or other fine piece of jewelry, clock, silverware, cut glass, etc., that we have a large and complete stock of the above mentioned goods and which we offer at a lower price than is asked for the same goods in Washington.

Sorrow's Tribute.—A Song

Farewell? No—not forever!—
We'll meet beyond the skies,
Where tears of anguish never
Shall fall from aching eyes.
For the God of love will gather
Every tear of life's alloy,
And will in the future change them
Into pearls of radiant joy;
Yes—the future, friend, the future
Will in God's own time and way
Show the meaning of these showers
That now drown our eyes today!

Say not "farewell, forever,"
The veil that hangs between
Will be by God's fair angel
Withdrawn—then shall be seen
The full glory of those regions,
Where our last awhile await
On the golden strand of Eden,
Watching at the open gate.
Trust to God, dear friend, the future—
Tho' death's mystery now enshroud
Our sad hearts in gloomful sorrow,
God will one day lift the cloud!

'Tis not "farewell, forever!"
The past will live again.
Redeemed by Christ, our Saviour,
Its best will still remain.
In the Masteralch'mist's cauldron
All its dross will fall away
And the gold will stand the trial
Of the Saviour's judgment day:
O—the future—God's near future
Will our yearning souls amaze,
When its wondrous, hidden mystery
Opens on our gladden'd gaze!

Farewell—but not forever!
Ethereal clouds of love
Will open, while we enter
Our Father's house above:
Falling tears will be forgotten,
Breaking hearts will be unknown,
As we greet our lov'd ones gather'd
Smiling 'round our Father's throne.
In God's future world forever
We shall all united be
In Christ's many-mansion'd glory—
Thro' a glad eternity!

Automobile Accidents.

Thomas Miller, owner of the Atlantic Hotel, Bridgeport, Conn., with two companions and a chauffuer, was in a serious automobile accident one mile west of Rye, N. Y, late last night. The chauffeur, William Maynard, is believed to have been fatally injured. Mr. Miller and his guests were badly bruised. The party had started on a run from Bridgeport to Washington, D. C. The machine became unmanageable and crashed into the stone abutments of a bridge. The car was completely wrecked.

As a result of a collision between an automobile and a street car at Scoville and Woodland avenues, Cleveland, Ohio, just before midnight last night, R. B Robertson is dead; Patrick Fitzgerald, H. Boone, and another person whose name is unknown are very seriously injured and may die. The dead man and those who were injured were in the automobile, which carried six men. The machine was going at a high rate of speed and crashed into a street car which was standing at the corner of Scoville and Woodland avenues.

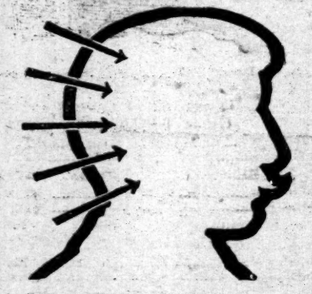
A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackets, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at E. S. Leadbeater & Sons' drug store. Price 50c and $1.00. Trial bottle free.

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefitted by their use. They only cost a quarter. For sale by Gibson & Timberman and W. F Creighton & Co.

FINANCIAL



POINTS TO KEEP IN MIND!

Why you should make a WILL. It is the only way you can control your estate after death—without it your control ceases. By a WILL you choose who shall manage and settle your affairs—without it the Court may appoint some one of whom you would not approve. By a WILL you determine who shall have your property—without it the law determines. By a WILL some one is ready to assume the duties—without it no one has authority to act until the Court appoints. This Corporation acts as Executor, Administrator, Guardian or Trustee. A TRUST COMPANY never dies—is always present. It cannot abscond; it is never sick, never takes a vacation. It is always prepared to do business during business hours, and you know just where to find it. Its accounts are always posted up to date, and a report can be furnished at any time on short notice. Every dollar of its Capital Stock is liable for the faithful performance of business intrusted to it. We have competent Attorneys, experienced directors and officers, skilled accountants, and our bonded obligations are the highest guarantees of efficiency and safety.
